

SPE DETROIT SECTION

3-YEAR DIRECTORS THRU JUNE 2020

Marc Bahm has been actively involved with the SPE Detroit Section for the past five years. He has been in the automotive resin business in technical and commercial roles over the past twenty-five years. He is a graduate of Ferris State University and Lawrence Technological University. He is currently working for BASF in Wyandotte, MI in a technical role and focus on serving his customers and working on new business development activities. Marc has worked for several resin companies that have given him a great opportunity to learn different materials from the aspect of application development, technical service, account management, and OEM marketing.

Neil Fuenmayor has enjoyed various technical, commercial and marketing roles in the plastics industry for 28 years. Initially joining SPE as an affiliate member in 1990, Neil has been actively involved with SPE both in the Detroit Section's TPO Automotive Conference and the Automotive Division for over 25 years. As a B.S. Mechanical Engineering graduate from the University of Pennsylvania in 1988, Neil was one of the original design engineers in the embryonic design engineering (CAE) group at Himont. Since joining Neil has held ever increasing responsibilities on the market development team for PP Compounds Automotive. Neil is the North American Marketing Manager for Automotive, responsible for all OEM.

Todd Hogan is a Research Scientist with the Dow Chemical Company since 1990. Todd received his BS Degree in Mechanical Engineering in 1990 and MS Degree in Mechanical Engineering in 1995, both from GMI Engineering and Management Institute in Flint, Michigan. Todd has been a member of SPE since joining the GMI (now Kettering) student chapter in 1988. Todd has been actively involved in the Mid-Michigan and Detroit Sections of SPE over the last 29 years. At the international level, he has served as chairperson for the Young Plastics Professionals and Student Chapters Committees. Todd has received Outstanding Achievement awards and is an Honored Service Member.

Armando Sardanopoli has been a member of SPE since 1968. He was responsible for initiating the SPI TPU Committee while employed at BASF. Armando was instrumental in starting a Plastics Technology program at Schoolcraft College and along with an advisory committee has completed the planning for an AAS Degree in Plastics Technology. Armando joined the newly formed BASF TPU business in 1986. He was head of all aspects related to technology development. He retired in 2006 and has been consulting in the industry since then.

Keith M. Siopes has been actively serving the Detroit Section as an AutoEPCON committee member, as a guest innovation awards panel judge, and as a volunteer coordinator. Over the past 34 years, he has served the global automotive plastics industry, in various engineering, sales and marketing roles: with an automotive OEM, with major resin suppliers and compounders, and as an independent consultant. In his current role, he serves as an Automotive OEM Manager for DSM Engineering Plastics. Keith holds a B.S. in Plastics Engineering and an M.S. in Finance. He lives in Novi, Michigan.
