May Newsletter on the Web

You can find the web-only Detroit Section newsletter for May along with previous newsletters on our website spedetroit.org for reading and printing. Notifications of our newsletter and *News Brief* postings are on our Social Media sites. Follow Detroit SPEaker on [LinkedIn](#), [Twitter](#), and [Facebook](#) for the latest activities in the Detroit Section. Visit [The Chain](#) on the SPE web to interact with the Detroit Board and other SPE members. Subscribe to SPE [Plastics Insight](#) to receive the latest specific information of interest to you. Get the [SPE Mobile](#) and [SPE Events](#) apps.

Plan to Attend the May 10 AutoEPCON

You are encouraged to attend this 1-day technical conference & exhibition which showcases innovative developments in the design, materials, processing, and use of engineering plastics for the global automotive industry. It is specifically created to inform, update, and educate the OEM and supplier communities about the many advances in both thermoset and thermoplastic engineering polymers.

- **Learn** how these widely used materials can help improve performance and productivity, while reducing cost and mass.
- **Hear** technical presentations on the newest advances in engineering materials related to: design engineering, materials development, lighting, thermal management, processing and enabling technologies, predictive engineering, new applications, and more.
- **See** exhibits from engineering plastic suppliers, compounders, molders, additives and reinforcement suppliers, design and engineering firms, and machinery suppliers.

Experts will show you how to apply the latest technologies to your next project or program. The conference includes a full day of technical presentations, plenary and keynote presentations on current automotive business trends, lunch and coffee breaks, exhibits, and an evening reception. [Click here for more information](#)

Plan to use the new SPE Events app at AutoEPCON. The app is available free.
