8:30 PM Program Closing

Steven D. London, President and Chief Operating Officer of Bekum America Corporation will be presenting the Plastics Manufacturing Machinery in America. BEKUM America is North America's leading provider of blow molding technology and was established in 1979 with the mission to introduce top quality blow molding machinery, designed to produce plastic bottles, containers and other large plastic parts in the North American marketplace, via blending German design and technology with American skill and ingenuity. A sample of products produced on BEKUM's machinery includes customer favorites such as cosmetic and shampoo bottles, food jars, detergent bottles, beverage and juice containers, and countless other large plastic objects. BEKUM's customers produce these products for an impressive array of consumer-oriented companies. Bekum's customer base includes large multi-national customers, as well as owner/operator plastic bottle manufacturers.

Cost: \$35 for one seat \$250 for a table of 8. Free for, SPE Detroit Section board members, students and faculties.
